Workgroup Solutions

MFP/printer
compact design
color/black and white
fleet integration

Simply advanced.
Designed for
Busy workgroups that demand connected workflows in a compact space

Standard Features

- Copy*/Print*/Send*/Fax*
- Color/Black and White
- Print up to 36 ppm (Letter)
- Up to 600 x 600 dpi
- Up to 8-½” x 14”
- 2,300-sheet maximum capacity
- In-line finishing option
- Scan up to 36 ipm*
- Scan directly to Microsoft® PowerPoint® and Searchable PDF formats*
- Hard Disk Drive Lock and Erase, IPsec

* imageRUNNER ADVANCE C350iF/C250iF only.
Simply advanced.

As Canon’s most advanced compact color devices, the imageRUNNER ADVANCE C350iF/C250iF/C350P models deliver easy, efficient workflows and connectivity to mobile devices and cloud-based tools. Smooth fleet integration allows transition from basic output to advanced MDS solutions, without sacrificing space. Designed to help any business reach higher productivity, these models are simply advanced.

People-Centric
An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

Brilliant
Get noticed with high-impact, vivid and vibrant color and crisp black and white, all delivered with impressive speed and quality.

Security
Multilayered solutions help safeguard confidential information and, with certain options, support security compliance.

Mobile
Even on the go, you’re in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

Cloud-Enabled
A touch of a button on the user interface lets you access, scan to, or print directly from certain cloud applications.

Connected
Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.
People-centric. Brilliant output.

Designed to help users complete tasks quickly and easily, the imageRUNNER ADVANCE C350iF/C250iF/C350P models’ advanced capabilities deliver impressive, customizable usability while also saving space.

A smart, intuitive interface

The imageRUNNER ADVANCE C350iF/C250iF/C350P models are designed with you in mind. With an impressive range of customizable, simple-to-use, streamlined features, the imageRUNNER ADVANCE platform lets users work smarter and faster. The 7” full-color, tiltable, high-resolution TFT touchscreen helps provide exceptional clarity and usability.

NOTE: MFP model shown.

Two menus

Press the Main Menu key for instant access to business-ready functions. Create and access routine tasks and job flows using the Quick Menu.

Custom options

Organize and restrict the on-screen buttons to fit the way you work by determining their number, size, and layout. Even display your own graphics as a screen background.

Web-ready

View Web pages directly from the device control panel. Just enter a URL to browse pages. Easily output online PDFs.

Handy tutorials

Quickly access simple, step-by-step instructions right on the user interface. On-screen animations help replace consumables and increase productivity.
Engineered for adaptability

These intelligent systems are Canon’s most advanced color letter-/legal-sized devices, supporting many of the same workflows as Canon’s larger, ledger-sized models. With the ability to smoothly integrate hardware and software solutions, the imageRUNNER ADVANCE C350iF/C250iF/C350P models let you personalize applications to meet your goals of today—and tomorrow. And it’s highly flexible, so you can easily add to, or update, your system by quickly deploying settings and applications across your enterprise.

Walk-up convenience

Perform a host of powerful tasks right on the device’s large, tiltable color screen, without having to go back to your desk. View and print PDF files. Easily scan* to, or print from, a USB thumb drive. Access and store documents on other imageRUNNER ADVANCE systems—and more.*

A familiar experience

Users will be quick to master the imageRUNNER ADVANCE C350iF/C250iF/C350P models—or any other imageRUNNER ADVANCE system. With built-in consistency all across the line, each model has the same user interface, print drivers, and utilities for more productivity, less training, and less burden on IT.

* imageRUNNER ADVANCE C350iF/C250iF only.
Powerful integration.
Outstanding efficiency.

Small but powerful, the imageRUNNER ADVANCE C350iF/C250iF/C350P models are highly effective digital communications hubs. Connect with enterprise applications. Integrate with mobility solutions. Streamline complicated tasks. Gain the freedom to be more productive.

On the go

In an increasingly mobile world, effective business people need to be productive wherever they are. Canon delivers advanced solutions that help you optimize your efficiency, regardless of the size of your business.

Mobile devices
Print and scan* on the go from your laptop, tablet, or smartphone in a flash with any of Canon’s mobile print solutions, including Apple AirPrint®. Just log-in at an imageRUNNER ADVANCE device to retrieve your job.

Cloud portal
Gain quick access to certain cloud-based applications right from the imageRUNNER ADVANCE. Simply log in to send* or access documents to and from the cloud.

Desktop integration
Enjoy even greater control and convenience right from your PC. Use the imageRUNNER ADVANCE Quick Printing Tool to print, fax,* preview, and convert files to PDFs, as well as monitor the status of your system—all without opening an application. And imageRUNNER ADVANCE Desktop lets you manage and prepare documents, combine multiple formats, preview files, and select the finishing features.

Extensive print solutions

Complete print support
All models support Canon’s proprietary, high-speed UFR II print technology as well as PCL 5e/6 and Adobe® PostScript® 3*. All are standard, built right into Canon’s most advanced color letter-/legal-sized devices.

Control
Canon’s Driver Configuration Tool allows you to set specific defaults and custom profiles. You can control costs with features such as default duplex printing and also enhance security by forcing secure print.

* imageRUNNER ADVANCE C350iF/C250iF only.
Easy collaboration

Inter-device connectivity
The imageRUNNER ADVANCE C350iF/C250iF/C350P models deliver true fleet integration, easily connecting with other Canon models on your network. Leverage features including Advanced Box folders on other Canon imageRUNNER ADVANCE devices, remote address books, remote storage capabilities, and more.

Scan, store, and distribute documents*
Canon makes it simple to save, store, and access scanned documents from multiple locations, including external memory media or another networked location. Easily distribute scanned documents to multiple destinations—including e-mail addresses, faxes, and network folders—all in a single step. Scan documents directly into your choice of multiple formats, including Microsoft PowerPoint or a Searchable PDF file, as well as High Compression PDF/XPS, PDF/A, and Encrypted PDF.

Fax documents
Enjoy standard Super G3 fax capability on the imageRUNNER ADVANCE C350iF/C250iF devices. Job Forwarding can automatically route incoming faxes to other systems, users, e-mail servers, or destinations for total integration. Plus, you can automatically redirect incoming faxes to certain Canon LBP printers.

Integrate your imaging with enterprise applications
Canon’s middleware technology links enterprise applications such as Oracle® and SAP® with Customer Relationship Management systems like Salesforce.com®, ECM systems, and many others. You can also connect your document-intensive processes with these applications. The streamlined document and data flow automates complex business processes and offers easy access to information, saving both time and money.

Advanced business process optimization
Leveraging the capabilities of devices like the imageRUNNER ADVANCE C350iF/C250iF/C350P models, Canon can deliver tools to help optimize the way any business performs core tasks. These include printing, copying,* scanning,* document storage,* document management, information sharing and more, even bringing the power of cloud-based tools to many common workflows.

* imageRUNNER ADVANCE C350iF/C250iF only..
Robust security. Centralized management.

In today’s networked world, you need greater control over your resources and data. The imageRUNNER ADVANCE C350iF/C250iF/C350P models deliver just that with the ability to configure a system, help safeguard information, and track resources, all right at your fingertips.

Powerful command
Canon’s device management tools keep you in charge at every step, right from your desktop or through the cloud. Easily install and replace devices, migrate settings and data to new ones, and distribute applications and settings across your network. Monitor a single device with the Remote User Interface or an entire fleet with the imageWARE Enterprise Console or Canon MDS Cloud. You can even receive alerts when supplies or service are needed.

Safeguard data
From installation to retirement, these models offer multilayered solutions to help safeguard information and support security compliance. HDD Erase, a standard feature, removes latent images after each task to help safeguard your information during use and at end of life. A security chip with tamper-resistant hardware helps protect passwords and encryption keys. IPsec provides security for data as it traverses the network. The available imageWARE Secure Audit Manager Express logs a copy of all jobs and can send alerts based on key words detected.

Maximize resources
These systems offer advanced tools to help you track, manage, and influence user behavior. Solutions such as uniFLOW analyze output, encourage double-sided printing, and allocate costs by department, project, or client. You can also route jobs to the most cost-effective device.

Secure authentication
With the need to keep data secure, Universal Login Manager and AA-Print provide a serverless environment where users can print from anywhere within the network to any supported device via log-in authentication. This helps prevent printed documents from being left unattended.

Security Features

**Document Security**
- Document Scan Lock and Tracking*
- Adobe LiveCycle® Rights Management
- ES2.5 Integration
- Encrypted Secured Print
- Watermark/Secure Watermark
- Copy Set Numbering*
- Encrypted PDF*
- Digital Signature PDF*
- Fax Forwarding*
- Fax Destination Confirmation*

**Network Security**
- POP Authentication before SMTP
- SMTP Authentication

**IP/MAC Address Filtering**
- Port Filtering
- SSL Encryption
- Network Application On/Off
- USB Port On/Off
- Destination Restriction*
- IPsec
- IEEE 802.1X (Wire/Wireless)

**Device Security**
- IEEE 2600.1 Certification

**Data Security**
- HDD Lock
- Trusted Platform Module
- HDD Data Erase and Initialize
- HDD Data Erase Scheduler
- HDD Encryption
- Advanced Box Security
- Job Log Conceal
- Removable Hard Disk Drive

**Logging/Auditing Security**
- imageWARE Secure Audit Manager Express
- Audit Authentication
- Department ID/Control Card Systems
- Device Level Log-in (SSO-H)
- Access Management System (AMS)
- Function Level Log-in via AMS
- Authorized Send*
- Common Access Card (AA-CAC)
- Universal Login Manager

* Available on the imageRUNNER ADVANCE C350iF/C250iF only.
Dependable operation. Outstanding quality.

Gain a competitive edge with the brilliant, eye-catching color of the imageRUNNER ADVANCE C350iF/C250iF/C350P devices. Keep work moving with true multitasking power in a compact space. All with the reliable performance you expect from Canon.

Outstanding results
The imageRUNNER ADVANCE C350iF/C250iF/C350P models give you the ability to print high-quality documents in-house, regardless of the size of your operation. Proposals, reports, newsletters, and contracts are striking in brilliant color or crisp black and white, thanks to Canon’s state-of-the-art imaging and toner technologies. With Canon’s V² Color profile, documents are even more vivid and vibrant than ever. With the compact finisher option, everyone in your office can make a great impression.

Lots of uptime
Canon incorporates its signature reliability into every imageRUNNER ADVANCE Series model. Status notifications help keep you ahead of the game, and Canon's toner bottles are easy to replace with less waste. The waste toner bottle is readily replaceable by the user, further minimizing downtime. If the correct paper for a job is unavailable, the system begins the next job without delay. And with access to the latest technology and simple, clear upgrades, you can power through your tasks, giving you more time to devote to other business areas.

Powerful operation
Accomplish multiple tasks concurrently with the speed your work demands. These models have two dedicated processors that work together to accomplish multiple tasks simultaneously. And Quick Startup mode minimizes start-up time, so devices start up promptly to help keep you working with outstanding efficiency.

Targeted, integrated solutions
With productivity being key, the imageRUNNER ADVANCE C350iF/C250iF/C350P models offer the ability to personalize the way your company gathers, organizes, and disseminates information. Canon’s innovative MEAP® platform lets you run custom solutions to meet specific workflow needs. And new levels of connector and link support enhance communication with existing systems as well as those you may acquire in the future.
Advanced Responsibility

Strong commitment. Eco-conscious solutions.

The imageRUNNER ADVANCE C350iF/C250iF/C350P models incorporate innovative, eco-conscious solutions that help keep your business operating efficiently while helping to reduce your environmental footprint.

A responsible way to work
Canon knows that the world and the workplace need a more responsible workflow, and the EPEAT®-rated imageRUNNER ADVANCE C350iF/C250iF/C350P models deliver just that. Now you can seamlessly share and distribute digital documents and preview files to make changes prior to printing, reducing the use of paper and toner. Print drivers are defaulted to duplex documents, encouraging two-sided printing to help reduce waste. And with secured printing, documents are sent to a device but not printed until a password is entered, further reducing paper waste.

Eco-conscious design
Canon is making a difference through creative ecological thinking. These models employ certain components fabricated with 100% recycled plastic from retired products. Canon’s innovative environmentally focused technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

A clear strategy
Greater energy efficiency
From the inside out, the imageRUNNER ADVANCE C350iF/C250iF/C350P models are designed for high-energy efficiency and stellar performance. The combination of Canon’s fusing technologies and QF toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby. With advanced technologies present in each model, the Series also meets ENERGY STAR® standards.

Minimize environmental impact
All Canon suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restrict the use of certain hazardous substances. In fact, Canon was the first in the industry to meet the RoHS standards and continues this commitment to the environment.

Reduction of CO₂ emissions
Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed with less packaging to be small and light with high performance. They’re intended to help make transportation more efficient.
**Available only on imageRUNNER ADVANCE C350iF/C250iF.**

**UFR II and PCL 5e/6 and Adobe PostScript 3 are standard.**
